

Digital Literacy and Cybersecurity Workshop

Program Overview:

This 3-day workshop is designed for 3 hours (*split in 3 days 1 hour per day*) to introduce children aged 8 to 13 to the fundamental concepts of digital literacy and cybersecurity. Participants will learn about online safety, internet etiquette, protecting personal information, and basic cybersecurity practice.

Objectives:

- Educate participants on the importance of digital literacy and cybersecurity in the modern, connected world.
- Teach participants how to safely navigate the internet and identify potential online threats.
- Develop participants' critical thinking and problem-solving skills to address cybersecurity challenges.
- Empower participants to become responsible and informed digital citizens.

Target Audience:

Kids from 8 to 13 years old

Prerequisites: Basic English and no prior experience are necessary.

Duration:

3 hours
